SINGLE-TAG KEKABS®

HPC's Single-Tag key security control system is designed to control and provide security for 8 to 730 keys. KeKabs® are ideal for home, store or office use, where centralized or departmental key control is desired. They are designed to be mounted on a wall, near a desk, a work station or recessed into a wall opening.

Each HPC KeKab® security control system includes:

- White Key Tags with bright nickel plated snap-hooks which can hold multiple keys on each snap-hook. The tags are numbered for easy identification.
- "Out Key" control Tags that are made of yellow paper. They are used for accountability (to record information on loaned keys).
- Lock Location Data which consists of an erasable lock location chart as part of the KEKAB-8 and numbered key control booklets with all other KeKabs®.
- Unique Two-Step Textured Epoxy Painting Process which provides an attractive and very durable finish. The neutral sand color allows them to be hung anywhere.
- Heavy Gauge Steel Construction with piano hinged doors and key panels provides a sturdy location to secure your keys.

KEKAB8

KEKAB120

Most Single-Tag KeKabs® are equipped with a 5-wafer tumbler cam lock with two keys. All KeKabs can be keyed-alike, master-keyed, or furnished with combination lock or dual control locks at an additional charge. The "X" at the end of a stock number denotes that the cabinet is expandable.
